

Fishing Report for week of 15-22 October, 2007

Guests: Phillip Young, Christopher Scott, Diego, Jose, Fredy and Marcos from Argentina.

Weather: Hi 6C; Lo -12C. Cool temps. Sun to start the week. Snow to end the season.

Rivers: Bell Irving, Nass, Damdochax

The week started with high water after 3 days of warmer temps and rain. The rivers cleared up quickly however and we were into fish by day two. We had 4 anglers from Argentina that have fished in BC for almost 30 years.

The week started slow and finished strong with a magical day on the Nass to end the year. Two for Fredy and Diego and one for Jose. Marcos had a three steelhead day on the Bell Irving – his first steelhead ever!!
