

Fishing Report for week of 05 -12 October, 2007

Guests: Mark Schifrin, Joe Macy, David Brazier, Michael Morland, Mike Clark, Jim Garnett

Weather: Hi 10C; Lo -7C. Cool temps. Mixed sun and cloud. Quite enjoyable

Rivers: Bell Irving, Nass, Meziadin, Bear

The good weather continues to start the week. The fish seem to be on for the first few days as well. Thoughts are turning towards “it’s a late run this year” & “it’ll be a great end to the season”. All of our guests have been with us at least once before and 6 time guest Joe Macy says he’s still having fun.

During the first two days we had 17 steelhead and things were looking to be a typical week. The fishing slowed down mid week and we were back to work again.

Jim had a three fish day on the Nass. And everyone had fish during the week. Last year these guys enjoyed an 80+ fish week so we were a little disappointed to have only 25 this year. They even casted more and drank less!!!
